Logury of complifying DNA fragment, amplification apparatus of DNA fragment, amplification apparatus of DNA fragment, method for assaying a group of microorganisms, method for analyzing a group of microorganisms, and method for assaying contaminating substance.
                                                                                                                                                                                                                                                                                                                                                                                                                                                   Method and device for amplifying DNA fragment
